THE NEED

SMEs face three connected procurement barriers

01

Small purchases create big admin

Even everyday buys can trigger manual invoices and reimbursement work.

02

Supplier visibility is limited

Buyers struggle to source directly from factories and compare options.

03

Procurement is fragmented

Requests, samples, purchase orders and invoices rely on manual handoffs.

THE PRODUCT

Verified sourcing, assisted by AI – Supplymate

TRUSTED SUPPLY

Verified supplier network

Factory credentials checked; workshop assets and capacity reviewed.

ASSISTED DECISIONS

Smart supplier routing

Compare price, lead time, proximity and reliability. Set cost or speed priority.

LESS MANUAL WORK

Automated order workflow

Generate POs and invoices, add e-signatures, verify delivery by photo.

People stay in control AI recommends; a person approves every order.

THE BUILD

Technology stack

Core product components and tools named in the concept.

AI model

NAMED PLATFORMS Replit · RunPod

THE WORKFLOW

From request to delivery

01	02	03	04	05
Request	**Compare**	**Approve**	**Document**	**Confirm**
Buyer shares a need and sends an RFQ.	Review supplier options and samples.	A person decides whether to order.	Generate the PO and invoice; e-sign.	Verify delivery with photo proof.

AI scores options. A person makes the purchase decision.

THE VALUE

Less admin. Better access. More way to grow.

ACCESS

Buy closer to source

Direct factory access can help SMEs reach bulk pricing without intermediaries.

EFFICIENCY

Reduce manual steps

RFQ, purchase order and invoice automation reduces recordkeeping work.

FOCUS

Make time for growth

Less administration gives teams more time to build their businesses.

WIDER IMPACT

A stronger local supply ecosystem

Designed to support local enterprise and more accountable manufacturing.

SDG 8 · DECENT WORK AND ECONOMIC GROWTH

Connect verified workshops with earning opportunities for local micro-entrepreneurs.

SDG 9 · INDUSTRY, INNOVATION AND INFRASTRUCTURE

Digitize manufacturing procurement and documentation.

SDG 12 · RESPONSIBLE CONSUMPTION AND PRODUCTION

Paperless records and AI-assisted routing can help reduce waste and emissions.

SDG 17 · PARTNERSHIPS FOR THE GOALS

Build reliable links among factories, workshops, boutiques and businesses.

Factories · Workshops · Boutiques · Businesses
